## **CBC Flooring Introduces Enhanced Mature Product from TOLI** *With 36 New Colors, Designers Now Have Nearly Twice as Many Options*

COMMACK, N.Y. — TOLI Mature commercial sheet flooring, from CBC Flooring, now offers more than just a good-looking, sanitary floor.

Mature's enhanced wear surface offers the performance and maintenance options building owners need, while new design options provide designers colors never before seen to complement the ageless traditional ones in the line since its initial launch.

Adding 36 new colors allows the commercial sheet vinyl flooring line to offer a total of 51 colorways. Non-wood prints include subtle mottling; soft, neutral patinas; bolder stones like slate and marble; and a linen fabric with organic influences. Mature's enhanced wood collection includes two exotic species, wenge and zebrawood, along with bamboo, rustics and updated stains that are on the cutting edge of new design trends.

"Mature is, without question, the best looking print commercial sheet flooring in the world," said Jeff Collum, director of flooring for CBC. "The clarity of the print film is superior to other traditional rotogravure sheet vinyl products. And the new polyurethane coating makes the floor more durable and even enhances its visual appeal. In addition, the natural embossing mimics perfectly the texture found on wood planks, stones and even slate."

The new cross-linked polyurethane wear surface means that Mature never needs to be stripped. It creates three options for ongoing maintenance: no finish, using a cleaner/maintainer or an applied on-site finish.

With 10 percent post-consumer and 16 percent pre-consumer recycled content, Mature supports sustainability initiatives, contributing to LEED® credits for recycled content and indoor air quality. It is also California Section 01350 compliant, the basis for many indoor air quality certifications.

-more-

When Mature was originally introduced to the marketplace more than 20 years ago, it set the standard for healthcare flooring because of its ability to preserve a sanitary environment, along with exceptional durability and stain, tear and indentation resistance. But with new design options and a polyurethane protected surface, applications for the new Mature go beyond healthcare. It is ideal for university dormitories, hospitality, retail, office, library and multi-family use, or anywhere a tough, durable and attractive floor is desired.

### **About CBC Flooring**

CBC Flooring, headquartered in Commack, NY, is part of CBC (AMERICA) Corp., the North American subsidiary of the CBC Group based in Japan. CBC (AMERICA) Corp. is the largest organization of CBC's companies, with divisions in security products, chemicals and pharmaceuticals, flooring, and plastics and resins. CBC Flooring brands TOLI International, CERES PVC-Free Flooring, Indelval rubber flooring, Salto Exceptional Flooring and Halo Floors all share a strong sense of responsibility to the environment in which we live and work; and support the responsible stewardship of resources and the preservation of the air, water, earth and its inhabitants. All CBC Flooring brands are both ISO 9001 and ISO 14001 compliant.
